

This is a sanctuary for all wildlife. As a property of Bluffton College it is dedicated to maintaining nature intact and undisturbed, for the sake of observation, scientific study and personal outdoor enjoyment. Over most of the area minimal control is exercised to provide selected kinds of habitats and plant life. Otherwise human marks and manipulation are avoided.

To maintain this kind of a preserve the following must apply:

- Walk on trails only.

- No pets, wheeled vehicles or mechanized recreation.

- Pick no plants or berries.

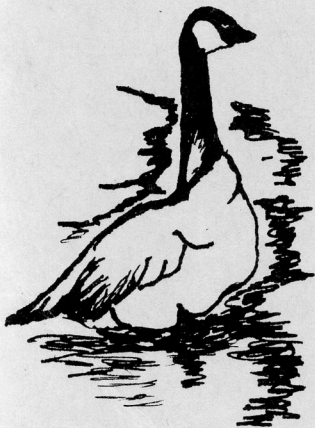

- Approach the lake only at designated points.

- Fishing, swimming, picknicking are not appropriate here.

- Leave no trash.

Enjoy nature here on its own terms and join in its protection for these purposes.
